

# Marketing & Communications Intern

## About this position

Asset Resolution's vision is of a financial sector that empowers the global economy to take decisive action to support the climate transition. Our mission is to optimize the accessibility and use of physical asset-level data for climate analysis by financial institutions.

We are looking for an enthusiastic **intern** to join our team. If you're someone who embraces a **startup mentality** and is excited to take on new challenges, we'd love to hear from you. We offer the opportunity to learn about and contribute to the world of ESG data, key sectors to the climate transition and the growth phase of a start-up.

## Responsibilities

Your primary responsibility will be to **assist our team in their daily marketing and communications tasks**. Your tasks will depend on your experience and the team's priorities. For example, you will help:

- Strengthen our online presence:
  - o Redesign our website
  - o Prepare blog posts and LinkedIn posts
- Write a newsletter for our clients
- Prepare ESG data market intelligence reports for the team
  - o New initiatives and companies
  - o Fund raising
  - o Mergers and acquisition
- Improve our marketing material
- Apply for support funding, e.g.
  - o Credits d'Impôt Recherche (CIR)
  - o Grants for start-ups
- Streamline and automate administrative tasks
  - o Client tracking
  - o Invoice and payment tracking
  - o Bookkeeping

## Required skills and experience

- Passion for sustainable finance and data
- Experience with marketing and communications activities
- Proficiency with Microsoft Office products
- Experience with Wordpress or other similar platforms
- Fluency in English is required. Fluency in French is an advantage.
- Enthusiasm!

## Location, remuneration and duration

- Paid internship.
- 4-6 months. Potential transition to full-time after the internship.
- Remote, but right to work in France or in Germany. Our offices are in Paris and Berlin. Any full-time position will be based in Paris or Berlin.

## Application process

We are looking to fill the position as soon as possible. Please send your CV and a cover letter at [jobs@asset-resolution.com](mailto:jobs@asset-resolution.com). Phone interviews will be organized with shortlisted candidates.

## About us

We were established in 2018 in Paris and work globally. We are expanding rapidly to support the growing needs of financial institutions. Our ever-growing database includes 300,000+ physical assets across the largest carbon emitting sectors and covers 85,000+ companies linked to 20,000+ financial securities. For each asset and company in the database we offer a suite of forward-looking climate-relevant indicators including location, production capacity, production, emissions intensity, and emissions. We offer access to this unparalleled database through bespoke data products, and we are developing analytical solutions to turn this data into information through, for example, scenario analysis and physical risk analysis.

### We offer you

- A dynamic team of data scientists, analysts, sustainable finance specialists, and developers passionate about the climate transition.
- A young company that spun off from the [2° Investing Initiative](#), a leading international, non-profit think tank working to align financial markets and regulations with the Paris Agreement goals.
- A small organization that is rapidly growing, providing a lot of opportunities to get hands-on experience, make your voice heard and help shape our future.
- A mission that brings together technology and impact.
- Flexibility in terms of working hours and location.
